30 August 1971

MEMORANDUM FOR THE RECORD

SUBJECT : Review of draft of Office of Security history
of Technical Security

25X1 1. On Friday, 27 August 1971, I received a telephone
call from [redacted] ORD/DDS&T, asking permis-
25X1 sion to review the subject paper. Among others, [redacted]
stated that [redacted] OS historical officer, had told
him to contact me.

25X1 2. In a telecon with [redacted] I confirmed that he
had no objections to [redacted] review. Both [redacted] and I
assumed that the use of the paper was predicated on some rela-
25X1 tion of the OS work on countermeasures to an ORD history in the
same area.

3. In discussing the paper with [redacted] when he came
to my office, I discovered that he was not writing ORD history;
25X1 and his interest in using the paper related to an article on
countermeasures which he was preparing for Studies in Intelli-
gence.

4. I specified to [redacted] that if he intended to use
25X1 any information from the OS paper in his Studies article he was
required to obtain permission from the Office of Security. I
emphasized that the historical paper was considerably more sensi-
tive than that usually published in Studies.

5. In response to [redacted] query regarding attribution
25X1 to the OS paper, I told him to contact me when he was ready to
go to press and we would provide the proper citation, depending
on the status of the paper in our editorial process.
